

Abdullah Awais

Software Engineering Student & Frontend Developer

Sargodha, Punjab, Pakistan | +92 321 6025036 | mirzawais512@gmail.com | github.com/abdullahawaisdev | [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

Motivated Software Engineering student at the University of Sargodha with a strong foundation in front-end development (HTML5, CSS3, Bootstrap, JavaScript, jQuery) and growing experience in PHP, Laravel, C++, Python, and SQL. Has independently designed and deployed six responsive websites, from portfolios to service-based business sites. Eager to contribute to a development team as an intern while continuing to build full-stack skills.

github.com/abdullahawaisdev/Luxury-Hotel

CV / Resume Website Design — HTML, CSS, Bootstrap

- Built a professional CV/resume site to present education, skills, and experience in a structured layout.

github.com/abdullahawaisdev/CV-Resume

AREAS OF FOCUS

- Front-end development — semantic HTML5, organized CSS3, and interactive elements with jQuery
- Responsive web design — mobile-first layouts using Bootstrap's grid system
- Landing pages & portfolio sites — clean structure with clear calls-to-action
- PHP & Laravel — building dynamic, database-driven web applications
